Thoughtfully designed. Expertly engineered.

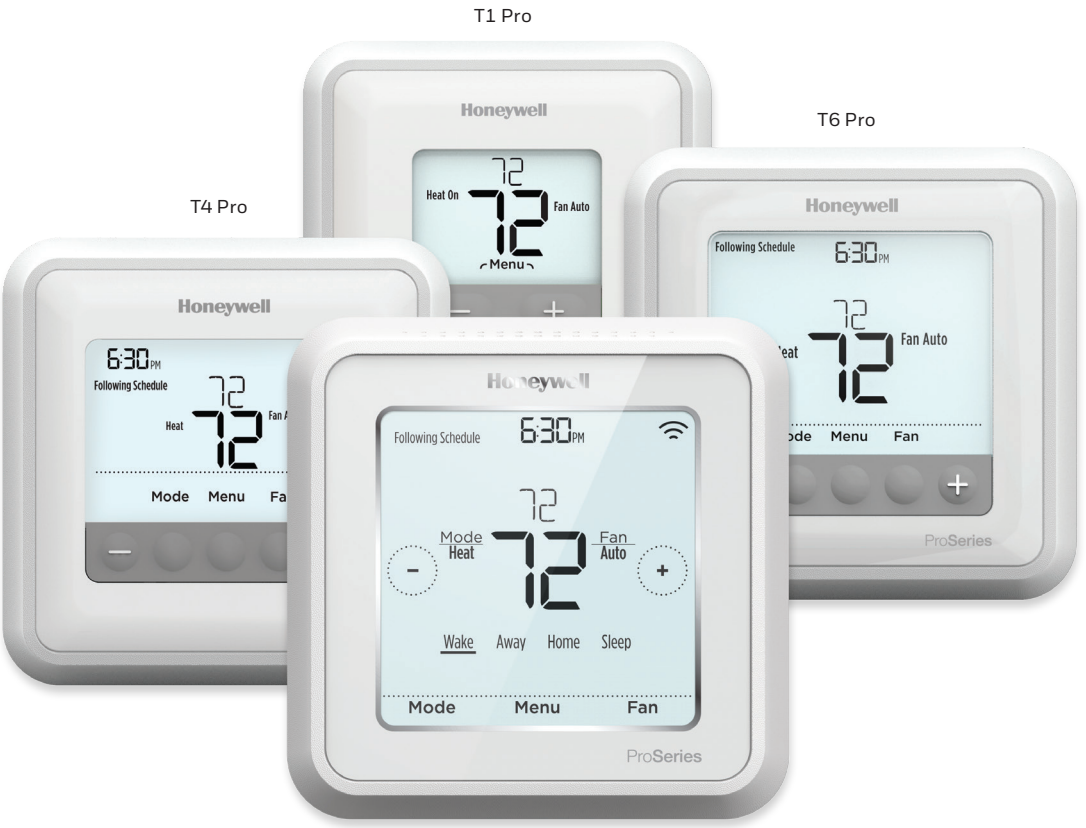

THE HONEYWELL T SERIES

Fits your business to a T.

BRILLIANT

Meet the next generation of everyday comfort solutions.

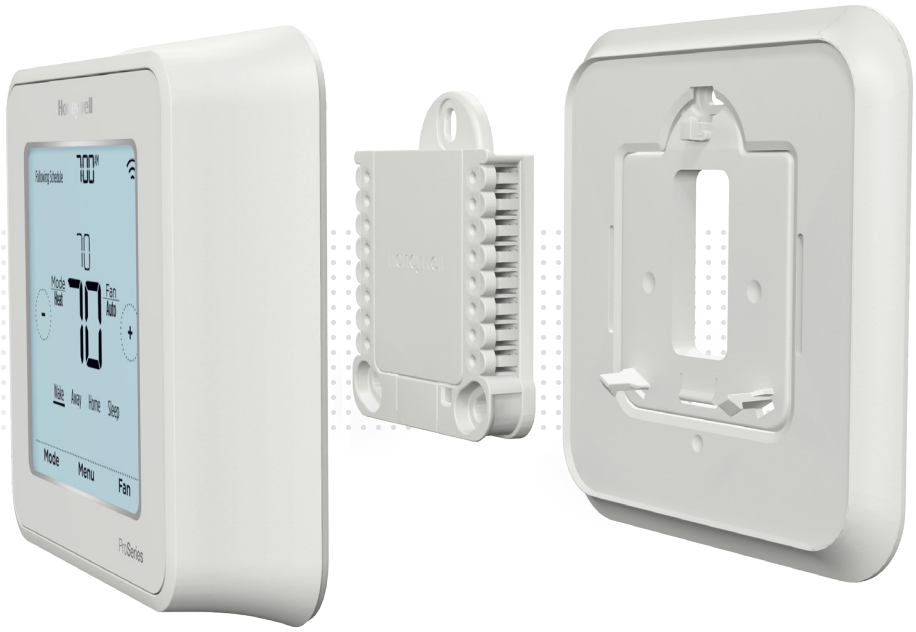

T6 Pro Smart

Introducing the Honeywell T Series.

The T Series is a portfolio of non-connected and Wi-Fi connected thermostats that streamlines everything from product selection and installation to customer service and support. With a standard footprint and simple interface, the T Series will enhance the entire thermostat experience for you and your customers alike.

As an HVAC contractor, you need to maximize margins while controlling complexity. More isn't necessarily better. That's why instead of adding to our thermostat portfolio, we're optimizing it.

UWP mounting system

A thermostat series designed with

CONTRACTORS IN MIND

Intuitive setup

Fits your technicians to a T

Every T Series thermostat features on-screen menus with familiar installer setup (ISU) steps, helping to eliminate the learning curve that can come with a new product. Your techs will be T Series experts in no time.

Faster installs

Fits your install process to a T

With the new UWP mounting system, you can standardize your training program, install process, and truck stock – helping your techs get in and out and on their way more quickly and efficiently.

Easy upsell

Fits your revenue model to a T

The T Series has a snap-together design that enables you to easily move customers from a non-connected to a connected thermostat without having to rip and replace the connector and cover plate.*

*C-wire required

DELIVER CONNECTIVITY

without the complexity

Homeowners want a connected home experience that streamlines and simplifies. The new T6 Pro Smart will fit their needs to a T. It's easy to use, easy to love, and easy for your techs to install and set up. Homeowners are asking for and adopting home automation technologies, and the T6 Pro Smart enables you to offer a simple solution that's integration-ready.

T6 Pro Smart

Simple functionality

Interact at the wall or on the app

Installers and homeowners can choose to do setup and scheduling at the wall like a traditional thermostat, or they can use the new and improved Honeywell Home app.

Super-simple homeowner hand-off

Installers can use the Honeywell Home app to send customers a personalized email that invites them to complete the Wi-Fi connection process on their own.

Optional ventilation control

The T6 Pro Smart is available with optional ventilation control and dual fuel capabilities for residential new construction projects that need to meet the ASHRAE 62.2 standard.

Smart features

Flexible comfort control

Homeowners can program a schedule or use location-based control with geofence technology, which uses their smartphone location to save energy when they're away and make the home comfortable when they return.

Ecosystem integration partnerships

The T6 Pro Smart seamlessly integrates with Apple® HomeKit™ and Amazon Echo® for customers who want to control all their smart home devices from a single app.

Works with Apple HomeKit
